When the Convention was attacked, it is established "bethree pistols in the hands of the procession ne-

The first attack was made by excrebel soldlers upon the negroes, and this was followed by the advance of the police in three columns, firing on the negroes and the Convention. Organizations of rebel soldlers joined in the attack. It was not the duty of the Commission to describe the seenes which ensued, but the report gives startling cyldence of the flendlsh spirit of the people and the mole, and state, as a firm consistent in that that for the presence of the troops, the fire and bloodshad would have taged throughout the night in all negro quarters of the city, and the lays and property of Unionists and Northern man would have been at the intercy of the min." Three days before his assasshauton, the position was tudered to me by President Lincoln, to facilitate the preparation of a record of his Administration and the ownerbrow of slavory in the Republic, which I then hered he would live to completely constituting. When I accepted the commission from you, which death prevented his from Issuing, I did win the full faith, based upon your patroite record during the rebellion, and your repeated coclatations over the dead hody of the nattyred desident, that your policy would make treason wallow," and that you would be faithful to the yal men, North and South, who had seved Republic; that you would endeavor occary at the principles, which will make Lincoln, which has an incident of the election placed you in the office of Vice President. You have desorted its principles, and are, to-day, in open, cordial commonlow with those who sought the overthelew of the Republic; of these whose who form hong years made warm upon our flag, and who crown at their long catalogue of crimes by the marcher which placed you in the Executive chair.

In your present position, and with such associates, it is natural you should have those whose fidelity must be a constant reproach to you. You are persecuting in Illinoir and clsewhere the old personal friends of Mr. Uncoln at the instance of his life-long caneties.

Mr. Fresident, the American people, in their hour of bitterest anguish, when almost suppilled with grief over the nurder of the noblest, grandest character which has adorned our littory, heard your vice aftering bold, indignant, loyal, patriotic words, they took you to their hearts and gave you their confidence. Where are you to-day? Who are your associates and advisors? What promise mado over the dard body of Lincoln lare you kept? What plodge then attend have you not broken?

Sir, you are wielding immense power and patronage, but I tell you, not in angur, but in deep-set sorrow, there are lew names other thin that of the rebel chief as yet in Fortress Monroe so odions among loyal men and-so popular among traitors as that of Andrew Johnson. #### FAIR WARNING:

The Legislature of Pennsylvania emeted a law making it "unlawful for any Judge or Inspector of Election to receive any ballot or ballots from any person or persons who have DESERTED THE MILITARY OR NAVAL SERVICE of the United States.

Any Judge or Inspector who does receive ballot from any such person is declared guilty of shall for each offense pay a penalty of not less than ONE HUNDRED DOLLARS, and be imprisoned not less than SIXTY DATS.

Any deserter as aforesaid who offers to vote, sul jeets bimself to the same penalties

And finally, any person who persuades or an vises any deserter, as aforesaid, to rote, will be punished in like manner.

Such are the important features of this stern and rightoous enactment, and it is to be enforced

General's office, certified to by Gen. J. B. Fry have been sent into every election district in the State of Pennsylvania. The lists are alphabetically arranged in regiments and also by counties, and every deserter from a Pennsylvania, regiment is is on the rolls,

This argument will deprive Hiester Clymer of thousands of roles; but the Copporhead State Committee are making a desperate effort to comteract this sweeping enactment. They are sending a pampidet to every Judge of Election in the State, containing a decision of the Supreme Court of Pennsylvania on the Disfranchisement act of Congress. The case broke in Franklin county and was tried before the Pennsylvania Descript Law was enacted! No election has on curred since that law was emeted, and hence there has been no decision under it! That las will be enforced to the letter, and we give the deserters in Titusville fair wavning that they will not only be spotted in public opinion, but spotted with a hundred dollar fine and sixty days imprisonment if they show their sneaking, cowardly, disfranchised countenances at the polls and offer to vote. Stick a pin there!

#### Mr. Pinney's Appointments. Hon, D. A. Finney will address the Geary Chil of Pithole this Friday evening.

Mr. Finney will speak at Controville on Monday evening, Oct. S.

Take Notice.

# The members of the Union Chib are requested

to meet at their rooms to-morrow (Saturday) evening, punctually at 7 o'clock, as business of importance will be transacted. Come one, com-

#### Keep It Before the People. That Jeff, Davis and every robe! smypathiscs

in the South, every brute who starved our prisoners at Anderson ville, every man engaged in the war for the overthrow of the Governmen would vote for Johnson's "Policy" and candidate if they had'n chance,

# Keep It Be

That if the President's reconstruction policy shall prevail, the Southern States will gain tioen ty-five members of Congress as a premium upon their rebellion. A vote for Hiester Clymer and A. B. McCalmont is one of the means adopted to secure the success of that policy and the conse quent reward of traitors

# Keep it Bufore the People

That the Copperhead leaders in their determiuntion, in defiance of the law, to offer the votes of deserters, virtually confess that these renegadus are expected to vote the Clymer ticket.— This is a most shameful admission, and ought to be enough to prevent every true man from you ing with that party.

# Spartansburg,

There will be a rousing Republican demon stration at Spartaneburg to-day. Delegations will be present from all the neighboring town ships, and Titusville will send up a score or two with Brown's Cornet Band. We hope for a meeting that will largely increase the Republican vote

All persons who wish to attend the Mass Meeting at Spartausburg to-day, are requested to meet at the Union Ciub Rooms at 11 o'clock this morning. There will be a torchlight procession early in the evening at Sparransburg, and the delegation will return on the train which arrives here at 81/4 o'clock. Gurdon S. Berry, Esq., and W. W. Gray have by special invitation been added to the list of speakers.

REPUBLICAN RAILY .- At the Centre School Housein Oil Creek Township, Monday evening next, there will be a meeting of the Republicans of Oll Crock. J. H. Baker, Esq., and Capt. W. W. Gray will be the speakers. As this is the last meeting that will be held in the town before election, let there be a full turn-out.

These have been two new wells struck on Pioneer within the last few days, and are each now pumping between one and two hundred barreis and increasing. One of them is owned by Mesers Harrington and Bronson and the other by Memrs. Walter Thompson & Co.

The Democratic Party during the War. Mr. E. O. Perrin, who addressed the Demo erats on Saturday evening, boasted of having n Democrat during the war, and claimed that his party was equally loyal with the Republicans in its relations to the Government and Re-bellion. He claimed that this political organization was equally if not for more worthy of public confidence and support than the Republicans. It would be easy to show that the avowed aims of the Democratic party to day are unpatriotic if not eivil no less than Constitutional liberty. But let us examine at this time the "record," and see if the Demouratic party did not give all the aid and compet possible to the Rebels in their attempt to destroy the Government. We will not go back to the connivance and encouragement. The road was commenced about the lst of June. extended to the South when secession was plotied, and before overtacts of treason were consmitted. History will bear witness that the Demeratic party, which has ever been the champion par excellence of slavery in the South, has also been its most obsequious ally and apologist at the North.

For every extension of the institution, for every fortification of its pretended rights or immunities, the Democratic party will have to answer be-fore the bar of public opinion. But to come down to the war. The Democratic party, or its acknowledged organs and oracles from HON, MORROW B. LOWRY last opposed the rigorous prosecution of the war. The Just severity of our Government was de nonneed as perilous fanaticism. Almost every menre of Congress siming to sustain the credit of the Government, to cripple the resources of the enemy, or to increase the efficiency of our army, they denounzed as unconstitutional. Every Hiester Clymer. Democrats! will you dare to traitorous or lukewarm civil or military representative, they landed as a martyr or a hero. Every error or disappointment of the Government, arising from the incompetency or froud on the part of its agents, furnished them a cause for exultation instead of regret. The conscription act they em-braced as the most effective instrument for creating and intensifying the popular disaffection.— Notwithstanding the pressing demand for men, and the impossibility of obtaining them in any other way with sufficient rapidity and in miniburs adequate to the emergency, Democratic orators and presses spared no pains short of physical resistance to impede its execution and to nullify and impair its effects. The New York osito from any such person is declared guilty of riots were the legitimate fruit, and the New York rioters—"my friends" as the Governor styled them-were the naturally born disciples of such Democratic gospel as this. When Lincoln emancipated the slaves, and the Union armies never, in the Providence of God, had any decisive victories until that solemn justice was done, the Democratic party declared the objects of the war perverted by the Government, the preservation of the Union and the destruction of slavery being equally incompatible, undesirable and unconstitutional. From that time, the Government equally with the negro, and the negro equally with the Government, as represented in the persons, the principles and the sets of its officer ous hostility. From that mo ment, it become the advocate of peace at any price and compromise on any tarms agreeable to rebels. The Democratic party never had the confidence of the army it has been ignored or repudiated with care and transient exceptions in twenty loyal States, by the American people in its insidious, systematic and almost female attempts to regain positival power and supremacy, both State and National, But never has such bitter contempt, so crush-

We attended last evening the dedicatory exer ciaes at the new lodge of the Harngari, and wit hall and ante-rooms occupy the entire second floor of Peter Miller's new brick block, on Franklin street. The lodge coont is very fastefully decorated and fitted up, and does ample credit to the nuterprise and liberably of this flourishing society. The officers just died last evening were as

The ceremonius of installation werefexceeding ly interesting and impressive. Addresses up propriate to the accession were delivered by Jacob Strauss, Carl Dufft, Prof. Wolf, John Rickert and several others. The exercises were interspersed mit such a fital error. An imperfect survey is with singing. There were many spectators pres ent, including about thirty ladies.

The lodge was organized Sept. 14, 1865. It now numbers fifty time members and is in a very prosperous condition. The Treasurer re ports a balance of \$391 on hand, after discharging all indebtedness. The Hagurari is an ancien order, founded for purely social and benevolen objects. We wish it continued success.

# Republican Rally and Pole Raising in

Picasantville. There was a large and enthusia-tie Republican Rally at Pleasantville Wednesday afternoon, on the occasion of raising a Rherty-pole. The ceremony was witnessed by a large concourse ad the stars and stripes given to the breeze amid lond and hearly chears.

A meeting was held in the Baptist Church, and stirring and eloquent addresses delivered by Col. Rodgers of Franklin, and Ira H. Pieres and W. W. Gray of this city. The exercises were ealiv ened by the lively strains of Brown's Corne Band of Titusville, who played a variety of pa-triotic airs, as well as many new pieces with brilliant and inspiring effect. The greatest onthu slasm prevalled. A special meeting of the Common Conneil will be held at the City Hall at 2 p. m. to-day. A The Farmers' Railroad.

The formal opening of this road, connecting the City with Petroleum Contre, took place on Wednesday and was a very pleasant affair to all vho participated in the excursion. W. H. Coffin, Esq., the energetic and affable President of the road, took charge of the train, and the party sion requisite to an irrestate ble conclusion upo comprised nearly one hundred invited guests, this subject. If our Datk i antern friends can Among these present were James Bishop, Georg H. Bissell, and David S. Duncomb, of New York gentlemen of large financial abilities, and the reasonable, and dangerous if not subversive of proprietors and principal stockholders of this mportant enterprise. The difficulties encount ered in the undertaking were of no ordinary character, but it was prosecuted with an energy and completed and in running order to Tar Farm about the middle of August. Beginning at Petroleum Centre, on the Wash. McClintocl Farm, the road passes through the Egbert, Dal-zell, Story, Tarr, Blood, Rynd, John McClintock Buchanan, (Rouseville,) Ham McClintock, (Mc Clintockville,) Clapp, Graff Hassen & Co's. terminating at Oil City. The Reno and Pithol Railroad intersects the Farmers' at Rouseville The Cherry Ran Branch of the Farmers' extending to Plumer, also diverges at Rouseville.

The commercial advantages of the new road we beyond calculation. It will have all the car rying trade below Petroleum Centre, in competi-tion, of course, with boats on Oil Creek, during the boating season. The passenger traffle nonnecessarily be large and remunerative. Hithoric our own chizens in visiting Franklin or OH City. have abaost invariably preferred to "swip round the circle," cia Corry and Meadville, (a distance of 104 miles,) to the wretched alterna tive of x tide or tramp "across lots," Oil City, at the mouth of Oil Greek, offers diverging lines of travel by rail and steam, and the city will do rive no mean advantages from this new link of commerce with the heart of the oil region. That the Farmers' Railroad will therefore prove a reous to require argument. We shall defer giving the statistical features of the enterprise and th nnionneement of its officers and general management till received from the proper official source The excursion of Thursday was afforded an ex-

cellent opportunity for surveying points of interest on the route, and in this respect it must become an attractive line of travel to ensual visitors and tourists. Halting a few moments at City, and after a half hour's Juterval returned to the former place. Here a luxurious repast had been prepared at the Cherry Run Hotel and the excursionists displayed their appreciation of the and devoted application, uninterrupted by any

I see frequent notices in your columns awarding presse to the Superintendent of the Oil Creek Railroad, Mr. H. F. Sweetser, and from them judge him to be of a disposition inclined to ac commodate the public. I wish you would draw his attention to the fact that there are a large number of people who risk their lives every day in Jumping from the trains while opposite Bull and Cow runs. Operators in thuse localities are compelled to leap from the cars while they are in motion, or else go down to Pioneer, and walk lack, a distance of over a mile, an alternative the unjority seem unwilling to accept. We do not ask that the trains he brought to a sland stilonly that the rate of speed be diminished. At present the engineers seem to take especial pains o run more rapidly over this portion of the road than any other. It may be amusing to them to witness the gyrations of an unfortunate individ-nal, but the victim never perceives anything

hughable in the proceeding.

During the past week the woods on this form have been fairly overrun with game; black, grey, and red equirrels, pheasants, rabbits, and an o essional fox. A constant fesillade proved that the followers of Nimrod were in arms, and plotheric game bags, showed success laid crowned their efforts. There is one species of game not so agreeable as the above, which flourishes among these ravines, and which acquires a size disproportionate to its reputation—that genial reptile, the rattlesnake. A few days ago one of these delightful creatures was killed, after a spirted contest, who measured forty-two inches it length, and whose candal appendage was graced with eight "rattles" and a "buttoo." when you visit here wear light hoots, and beware of stone-heaps. The evidence against him was of such a nature as to warrant the Justice in committing him to jail for trial. He was accordingly taken to Franklin by Constable King.
